ABOUT DRIVE

Dominant Roles In Various Environments

The EngagementFit DRIVE assessment is rooted in positive psychology and measures your natural drives and energy toward specific roles and environments.

On completing the DRIVE assessment, you will receive a report analyzing your unique Dominant Drives. This will explain specific natural and sustainable patterns of energy and behaviours within you so that you can purposefully navigate your career towards roles and environments that enable you to make a unique impact.

A career built on natural drives and energy, is a career created with clear direction where you will naturally thrive.

ABOUT YOUR TRANSFORMATIONAL LIFE COACH...

I have a passion for people's personal development and transformation. I love being part of people's journeys and to offer support to enhance growth in all areas where they feel the need to grow.

This is accomplished by supporting them in understanding their drives and how to apply them in their lives.

I am looking forward to journeying with you too!

Katrina's Dominant Drives:
